

The Western Australian Universities' Foundation Program (WAUFP)

The WAUFP is an academic program designed for international students who do not have a strong English language background. Students can gain entry into one of the four Western Australian public universities upon the successful completion of the program and fulfilment of the university's entry requirements.

Students must study at least 3 subjects as well as English Language and Australian Cultural Studies (ELACS). ELACS is the only compulsory subject. It increases the students' knowledge and understanding of Australian society and culture and further develops their reading, writing, listening and speaking skills.

Success in ELACS means that a student has met the English language requirement necessary for university entrance in WA. WAUFP graduates have gained entry to leading universities in Australia and worldwide.

Course Code 094026A

Advantages of WAUFP

- Entry into the top public universities in Western Australia: **The University of Western Australia, Murdoch University, Curtin University and Edith Cowan University.***
- Enhanced focus on English language with modifications for English as an additional language/dialect (EaL/D) learners
- Modified examination papers suited for EaL/D learners
- Potential early entry to some universities

*On successful completion of WAUFP and fulfilment of university entry requirements.

Course Duration

The Standard Program is a two-semester course, commencing in February.

Recognition of WAUFP

The WAUFP is recognised by many leading Australian universities in other states. According to information provided by the WAUFP provider colleges, students have successfully enrolled at the following universities:

Western Australia

- University of Western Australia
- Curtin University
- Murdoch University
- Edith Cowan University

Queensland

- Bond University
- Griffith University
- Queensland University of Technology
- University of Central Queensland
